Welcome to Anir Tours

Anir Tours is a travel agency based in Marrakech. We put together three things travelers usually have to arrange separately: excursions across Morocco, guided tours of Marrakech itself, and private transportation to get between them.

Excursions are available as private trips, with your own vehicle and driver, or as group excursions if you'd rather share the trip, and travel cost, with other travelers. Either way, you can talk to us directly by WhatsApp or the contact form before, during, and after you book.

Whether you're spending a few days in the city or using Marrakech as your base to see the south, we handle the logistics so the planning doesn't take up your trip.

Transport

Private transportation within Marrakech and to other Moroccan cities, including airport pickups and transfers, arranged in advance with a driver and vehicle — so you're not relying on taxis on arrival or figuring out routes with luggage in hand. We can also arrange transport as part of a longer excursion, so you're not booking transfers and tours separately.
